

ACADEMIC SYSTEM

Building Knowledge. Developing Professionals. Creating Opportunities.

At **Crawford Professionals Institute (CPI)**, we believe that quality education should provide more than a qualification. It should equip learners with the knowledge, practical skills, confidence and professional competence required to progress in education, employment, business and professional life.

CPI provides access to selected **Certificate, Diploma and Degree programmes** through applicable academic partnerships and affiliation arrangements with **TEAM University Uganda and Victoria University Uganda**, subject to the requirements and approval status of each programme.

Our academic programmes are designed to provide learners with structured pathways for academic progression and professional development.

OUR ACADEMIC PROGRAMMES

Certificate Programmes

Our Certificate programmes provide foundational knowledge and practical skills in selected areas of study.

They are suitable for learners who want to:

- Gain foundational professional knowledge
- Develop practical skills
- Enter a particular field of work
- Improve their existing skills
- Prepare for further academic study

Explore Certificate Programmes

Diploma Programmes

Our Diploma programmes provide more advanced knowledge and practical professional competencies.

They are suitable for learners who want to:

- Develop specialized professional skills

- Improve their employment opportunities
- Advance their careers
- Upgrade from certificate-level education
- Prepare for further academic progression

Explore Diploma Programmes

Degree Programmes

Our Degree programmes provide higher-level academic and professional development in selected fields.

They are designed for learners who want to:

- Develop advanced knowledge
- Build professional competence
- Progress in their careers
- Strengthen their academic qualifications
- Prepare for further professional or postgraduate education

WHY CHOOSE CPI FOR YOUR ACADEMIC JOURNEY?

1. Flexible Learning Opportunities

We recognize that many learners have employment, businesses and family responsibilities.

Where applicable to the specific programme, CPI provides flexible learning options that may include:

- Full-time study
- Part-time study
- Weekend learning
- Evening learning
- Online learning
- Blended learning

2. Practical and Career-Oriented Education

We believe education should connect classroom knowledge with real-world application.

Our learning approach emphasizes:

- Practical skills
- Critical thinking
- Problem solving
- Communication
- Research
- Digital competence
- Leadership
- Professional ethics
- Teamwork

3. Access to Digital Learning

CPI's digital learning environment is designed to support modern learners.

Depending on the programme, students may access:

- Course materials
- Lecture notes
- Recorded lectures
- Videos
- Assignments
- Quizzes
- Online assessments
- Academic announcements
- Learning resources

Students can access their learning environment through their personal **Student Portal**.

4. Qualified Lecturers and Academic Support

Students learn under lecturers and trainers with relevant academic and professional expertise.

Through the academic learning system, lecturers can:

- Deliver learning materials
- Upload lecture videos
- Provide assignments
- Conduct assessments
- Provide feedback
- Monitor student progress
- Communicate with learners

5. A Structured Student Experience

From application to completion, CPI aims to provide students with a structured academic journey.

The process includes:

Application → Admission → Registration → Learning → Assessment → Results → Completion

Students can access relevant academic information through their personal portal.

6. Academic Progression

CPI provides different academic pathways depending on the learner's qualifications and the requirements of the selected programme.

A learner may progress through appropriate levels such as:

Certificate → Diploma → Degree → Further Academic/Professional Development

Specific progression requirements depend on the programme and the applicable university and regulatory requirements.

7. Education That Supports Career Development

Academic qualifications can help learners strengthen their knowledge and professional profile.

Our programmes are intended to support learners who want to:

- Start a career
- Advance in their current profession
- Change career direction
- Upgrade their qualifications
- Develop specialized knowledge
- Prepare for further education

WHO CAN APPLY?

CPI's academic programmes may be suitable for:

- School leavers
- Certificate holders
- Diploma holders
- Working professionals
- Entrepreneurs
- Employees seeking career advancement
- Professionals seeking academic upgrading
- Individuals seeking to develop new professional competencies

Entry requirements vary by programme. Applicants should review the specific requirements of their chosen programme before applying.

HOW TO APPLY

STEP 1 — SELECT A PROGRAMME

Explore the available Certificate, Diploma and Degree programmes.

STEP 2 — CHECK REQUIREMENTS

Review the academic entry requirements, duration, fees and mode of study.

STEP 3 — COMPLETE THE APPLICATION

Fill in the online application form and provide the required information and supporting documents.

STEP 4 — APPLICATION REVIEW

Your application will be reviewed according to the applicable admission requirements.

STEP 5 — ADMISSION

Successful applicants receive the relevant admission and registration information.

STEP 6 — BEGIN LEARNING

Access your learning materials, lectures, assignments and other academic resources through the applicable learning platform.

STEP 7 — COMPLETE YOUR PROGRAMME

Participate in learning activities and complete the required assessments and academic requirements.

STEP 8 — PROGRESS

Upon successful completion of the programme requirements, the applicable academic award is issued by the responsible awarding institution in accordance with the programme arrangements.

OUR UNIVERSITY PARTNERSHIPS

CPI facilitates selected academic programmes through applicable academic partnership and affiliation arrangements with:

TEAM University Uganda

Selected programmes are offered through the applicable academic arrangements with TEAM University Uganda.

Victoria University Uganda

Selected programmes are also offered through applicable academic arrangements with Victoria University Uganda.

Important: The specific university affiliation, programme approval/accreditation, entry requirements and awarding arrangements should be displayed on each individual programme page rather than making one general claim for every programme.

STUDENT PORTAL

Once admitted and registered, students can access their personal academic dashboard.

The Student Portal may provide access to:

- My Courses
- Lecture Materials
- Videos
- Assignments
- Quizzes
- Examinations
- Results
- Academic Calendar
- Announcements
- Fees and Payments
- Admission Documents
- Certificates
- Student Profile

LECTURER PORTAL

CPI's academic learning environment also provides a dedicated Lecturer Portal.

Lecturers can access their assigned courses and:

- Upload learning materials
- Upload lecture videos
- Create assignments
- Create quizzes
- Conduct assessments
- Grade students

- Record attendance
- Monitor student performance
- Communicate with students

This creates a connected learning environment between **students, lecturers and academic administration**.

START YOUR ACADEMIC JOURNEY

Your Education. Your Skills. Your Future.

Whether you are beginning your academic journey, upgrading your qualification or preparing for the next stage of your career, CPI provides access to selected academic programmes designed to support your educational and professional goals.
