

About Crawford Professionals Institute (CPI)

Crawford Professionals Institute (CPI) is a leading professional training and capacity-building institution committed to equipping individuals and organizations with practical, industry-relevant skills for today's dynamic workplace. We deliver high-quality training across a wide range of sectors, including leadership, finance, public health, project management, procurement, human resources, ICT, governance, and monitoring & evaluation.

Our programmes are facilitated by experienced professionals using interactive, competency-based learning approaches that combine global best practices with real-world application. Whether delivered in-person, online, or through customized in-house programmes, CPI is dedicated to empowering professionals, enhancing organizational performance, and driving sustainable development across Africa.
